

Acid filter AF-S 75

Application

For removing aerosols.

Versions

| | Part no. |
|-------------------------------------------|----------|
| Acid filter AF-S 75 with condensate drain | 61615 |
| Coalescing filter element FE-S | 61651 |

Blue part no. = in-stock items

Description

With the coalescing filter insert, the acid filter removes highly corrosive aerosols from the gas flow.

Technical specifications

Operating temperature range

Ambient: -20/+140 °C

Medium: Max. 140 °C

Material

Filter insert: Glass fibre

Filter head: PTFE

Filter body: Duran glass

Gas pressure

Max. 0.5 bar

Condensate outlet

GL 14 with hose connection Ø 4/6 mm (inner/outer)

Filter surface

70 cm²

Gas inlet/gas outlet

G¼ female
